

Amendments to the Drawings

The Figure on the page after Fig. 46 and prior to the Fig. 47 is mistakenly labeled Fig. 24. Please replace the drawing marked as Fig. 24 which is an isometric view of cam and valve operating cam fitting on the sleeve, with the attached replacement drawing shown in Appendix 1.

Remarks

Applicant has amended the specification, abstract and claims substantially in accordance with the suggestions by the Office. Rather than amend the drawings as suggested by the Office, the specification was also amended to eliminate the interpretation of item numbers as reference designations. The Figure on the page after Fig. 46 and prior to the Fig. 47 is mistakenly labeled as Fig. 24. Please replace the drawing marked as Fig. 24 which is an isometric view of cam and valve operating cam fitting on the sleeve, with the attached replacement drawing, Fig. 46.

Summary

Applicant has amended the present application, as described above, to further prosecution and enable allowance of the application. Applicant has made a diligent effort to place the application in condition for allowance. However, should there remain unresolved issues that require adverse action, it is respectfully requested that the Examiner telephone Gail M. Taylor Russell, Applicants' Attorney at 512-338-4601 so that such issues may be resolved as expeditiously as possible.

For these reasons, and in view of the above amendments, this application is now considered to be in condition for allowance and such action is earnestly solicited.

Respectfully Submitted,

January 30, 2008
